There was discussion regarding the employee contract. David explained that he removed the nepotism clause because he strongly felt that if an individual was the best qualified for the job he or she should not be discriminated against because he is a relative to another employee at the Town of Romulus. Therefore, he replaced the nepotism clause with the following:

“In regards to employment with the Town of Romulus; the immediate supervisor can’t be an immediate family member of the proposed employee, unless approved by the Romulus Town Board. However, that is not to say immediate relatives of a supervisory position couldn’t be hired in a different capacity.”

Resolutions:
