November 15, 2021

David Hayes, Supervisor
Town of Romulus
1435 Prospect Street
PO Box 177
Willard, NY 14588

Dear Supervisor Hayes,

I am writing to express my support for the Town of Romulus's application to the New York State Environmental Facilities Corporation's (EFC) NYS Water Infrastructure Improvement Act (WIIA) Clean Water grant request. Through this program, Romulus will be able to improve the hamlet of Willard's water district, which will enhance water quality and public health.

Situated in the Finger Lakes, between Seneca and Cayuga Lakes, Romulus is an agricultural and tourism-based town, with many nationally renowned wineries. Water infrastructure is vitally important to maintaining the agricultural business and wineries. Improving water infrastructure will significantly improve the quality of life for visitors and residents.

This funding would allow the Town of Romulus to address improvements to reconstruct a portion of the Willard water district. The improvements will enhance the reliability and quality of the water used by residents in the area and improve safety by providing adequate fire flow volumes. These improvements will encourage economic growth in the local community.

For these reasons, I ask that full consideration is given to this application in accordance with all applicable rules and regulations. If I may provide further information, please do not hesitate to contact my office via email; gallahanj@nyassembly.gov or by phone; 315-781-2030.

Sincerely,

Jeff Gallahan
Member of Assembly
131st District
