Willard, New York 14588

RE: Town of Romulus Water Infrastructure Improvement Grant Application

Dear Supervisor Hayes:

As the State Senator representing the Town of Romulus, it is my pleasure to support the Town of Romulus' New York State Environmental Facilities Corporation's (EFC) NYS Water Infrastructure Improvement Act (WIIA) Drinking Water grant request to upgrade the water distribution system.

If funded, this project includes the upgrading of the water distribution system and a multi-million-dollar reconstruction of a substantial part of the Willard Water District. Once complete, this system will upgrade the water distribution system to a more reliable water system for the residents of the Town of Romulus, and provides a robust solution for future growth and development of the community and surrounding service areas.

I lend complete support to this project to upgrade the town's water distribution system and improve the community's water quality. In addition, I support the Town of Romulus' efforts to obtain WIIA Drinking Water grant funding from EFC and would appreciate your thorough consideration of its application.

Thank you for your consideration. If you should have any questions, please feel free to contact our office.

Sincerely,

A handwritten signature in black ink that reads "Pamela A. Helming".

Pamela A. Helming  
Senator, 54<sup>th</sup> District
