Message Body:

I drive up 96a often, I have watched a red and white tent with items offered for sale fall into a heap, and the remains of what appears to be junk...due to weather now destroyed sit like the start of yet another junk yard. This is heading north out of a Willard on the right hand side...close to Kanadala.

Willard is suffering greatly. It has houses abandoned, houses unacceptable to live in, yet are, houses unkept, and now with the abandonment of The Willard site...with dangerous buildings falling in a heap of rubble. I also see a overrunning of feral cats on Main Street....I have come before this board in the past with many concerns...all went to deaf ears. Sadly.

It truly is a-shame that what once was a lovely Hamlet in Seneca County is now being allowed to decay away due to the ignorance of code enforcement, fire code enforcement, and the Town Board, and Seneca County. Our roads need repair, other abandoned old buildings on Main Street need to be torn down and less of a haven for danger and unsightly neighborhood. The end of Main Street by the lake and the entrance to the park has been and is a gathering for drug deals, and use. Speeding cars, trucks, and fearless motorcycle drivers, have scared innocent children and adults visiting in the summer. They have no respect for lives or those of us that are elders living here.

Please listen to my pleas...thank you for your time...
Respectfully, Marty DeConinck Wooledge

I am married to a third generation resident of Willard.
It is sad...how in three generations this has been allowed...
